

LEARNING COMMUNITIES

Fall 2007

A Learning Community at San Jac Is The Answer For You!

Students who enroll in Learning Communities benefit from taking classes as a community of learners. Study groups, tutoring sessions, peer encouragement and new friendships are only some of the reasons that Learning Communities increase students' chances of success in college. Learning Community classes are smaller, at popular times and with outstanding instructors. Faculty work together to link the content of the classes and to ensure that no major assignments or tests occur on the same day. To enroll in a Learning Community see a counselor on your campus. The Learning Communities for all campuses are listed below.
